2. The Jury has the following question:

~~Q3~~ We would like clarification of Jury Instruction p10 section 17 "conversely, if you find that an independent claim is not infringed, you must also find that its dependent claims are not infringed." If we answer verdict 4A(i) = No, do we still consider 4A(ii)-(v) separately, or do the answers for 4A(ii)-(v) automatically become "No"?

If we consider 4A(ii)-(v)

separately, do you have guidance on how to take the portion of claim 1 we consider <sup>causing</sup> ~~not infringing~~ <sup>infringement</sup> into account?

If you answer "no" to Question 4(A)(i), indicating that you have found claim 1 of the '966 patent is not infringed, then the answer to Question 4(A)(ii)–(v) must be "no" because a dependent claim cannot be infringed if the independent claim is not infringed.

Above is the answer to
